## Electricians

High School diploma or equivalent

Electricians install, maintain, and repair electrical power, communications, lighting, and control systems in homes, businesses, and factories.

### What do they typically do:

- Read blueprints or technical diagrams
- Install and maintain wiring, control, and lighting systems
- Inspect electrical components, such as transformers and circuit breakers
- Identify electrical problems using a variety of testing devices
- Repair or replace wiring, equipment, or fixtures using handtools and power tools
- Follow state and local building regulations based on the National Electrical Code
- Direct and train workers to install, maintain, or repair electrical wiring or equipment
